

SCM | SERIES CENTRIFUGAL PUMP

These pumps are micro centrifugal pumps suitable for civil and industrial uses to pump clean water and chemical non-aggressive liquid with a compact size. They are extremely reliable, very simple to use and almost maintenance-free.

CONSTRUCT

- **Pump body:** Cast Iron
- **Impeller:** Brass/PPO/Stainless steel/Aluminum/Cast Iron
- **Motor:** Closed, externally ventilated
- **Insulation Class:** B/F
- **Protection Class:** IP 44/IP54
- **Mechanical Seal:** Stainless steel, Ceramic, Graphite
- **Shaft:** 45#Carbon Steel / Stainless steel
- **Thermal Protector (if required)**

TECHNICAL DATA

Model	Power		Current(A) 1-220V	speed (r.p.m)	Q.Max (l/min)	H. Max (m)	S.Head (m)	Pipe Dia (mm)	N.W. (Kg)	L×W×H (mm)
	HP	KW								
SCM-50	1	0.75	5		93	23			9.1	320×170×230

The normal power standard is 220v 50hz single phase.
Single phase 230v,240v,127v, 110,115v/60hz models are available on request
